## Professional summary

**Full Stack** Developer with solid experience in **React**, **Next.js**, **Node.js** and **TypeScript**, specialized in building **scalable web applications** and **performant REST APIs**. Expertise in software architecture using **SOLID** principles and **Design Patterns**, with proficiency in modeling and optimizing relational and non-relational databases such as **PostgreSQL**, **MySQL** and **MongoDB**. Proven experience in developing complex systems like **ERPs** and e-commerce platforms, ensuring rich, **intuitive**, **responsive** and **SEO-optimized** interfaces.

## Experience

### Full-Stack Web Developer

August 2025 - Present

WebFlix Tecnologia

*Design and construction of **scalable web applications** using **Next.js**, **React** and/or **PHP**, ensuring **performance** and **SEO optimization** at scale.*

*Development of performant **REST APIs** and complex **ERP** systems in containerized environments with **Docker**, focusing on **high availability**.*

*Data modeling and optimization in **MySQL** and **MongoDB** to support high-volume workflows and **data consistency**.*

*Implementation of **reusable component** libraries to ensure **development agility** and **visual consistency** across different projects.*

### Full-Stack Web Developer Freelancer

September 2022 - Present

Freelancer

*Development of **high-performance web applications** using primarily **Next.js**, **React** and **Node.js**, focusing on **scalability** and **maintainability**.*

*Implementation of **SEO** and **performance-oriented web systems** using **SSR**, **Google Tag Manager**, and **Google Analytics**, with standardized components with **Shadcn** and **Tailwind**, aiming for **consistency**, optimal **user experience**, and **conversion** results.*

*Utilization of **Docker** and **Docker Compose** to configure isolated and **consistent** development and production environments, facilitating **Continuous Integration** and **Continuous Deployment** (CI/CD).*

*Use of validation libraries like **Zod** to ensure data **consistency** and schema **standardization**, both on the **backend** (Node.js/Fastify) and **frontend** (Next.js/React).*

*Development of high-speed **REST APIs** with **Fastify** and **Drizzle** ORM alongside **PostgreSQL**, prioritizing end-to-end **security**, **performance**, and **type safety**.*

### Full-Stack Web Developer

May 2021 - September 2022

Datamob Informática

*Development of **rich interfaces** and **interactive dashboards** using **React**, with advanced use of **Hooks**, **Context API**, and **Redux** for efficient **state management**.*

*Planning and execution of **backend solutions** using **.NET** and relational databases such as **Oracle**, connecting user **interfaces** to complex **APIs**.*

*Creation of high-fidelity **prototypes** with **Figma**, collaborating on **Design Systems** definition to ensure **responsive interfaces** and optimal **user experience**.*

*Worked in agile workflows using **Scrum**, actively participating in **Code Reviews** to ensure code **quality** and **standardization**.*

Technical Skills

**Frontend:** React, Next.js, JavaScript, TypeScript, Redux, Zustand, TanStack Query, React Hook Form, Tailwind, Shadcn, MUI, SASS, Web Design Responsivo, Acessibilidade Web, and others.

**Backend & Integration:** RESTful APIs, Node.js, .NET Core, PostgreSQL, MySQL, Oracle, MongoDB, RabbitMQ, MQTT, and others.

**Tools & Methodologies:** Git, Docker, Figma, Scrum, Code Review, GitHub Actions, CI/CD, SEO for E-commerce, Google Tag Manager, SOLID, Design Patterns, and others.

Languages

**Portuguese:** Native/Fluent

**English:** Advanced
